DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21-34, 36-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Galle '433.

Considering claim 21, Galle discloses a conductor system for well bore data transmission comprising, a) a signal conductor and a tubular (see col 6, lines 21-24 and fig 6A); b) signal conductor located adjacent an interior surface of the tubular (see fig 6A); c) a thin coating on the interior of the tubular, for smoothing the interior surface to improve the hydraulic and hydrodynamic properties of the tubular (see col 8, lines 25-35 and fig 6A); d) signal conductor beneath the thin coating (see col 8, lines 59-62 and figs 6A and 6B).

Considering claim 22 Galle discloses the limitation of this claim (see col 8, lines 35-37).

Considering claim 23, Galle discloses the limitation of this claim (see col 7, lines 63-65 and fig 6B).

Considering claim 24 Galle discloses the limitation of this claim (see col 8, lines 4-7).

Considering claim 25, Galle discloses the limitation of this claim (see fig 6B).

Considering claim 26, Galle discloses the limitation of this claim (see col 8, lines 1-4).

Considering claims 27, 28 Galle discloses the limitations of these claims (see col 8, lines 4-6).

Considering claim 29 Galle discloses the limitation of this claim (see col 8, lines 7-9 and 22-25).

Considering claim 30 Galle discloses the limitation of this claim (see col 9, lines 5-16 and lines 31-33, col 11, lines 47-50 and fig 5, items A and B).

Considering claim 31 Galle discloses the limitation of this claim (see col 11, lines 47-50).

Considering claim 32 Galle discloses the limitation of this claim (see col 9, lines 31-41 and fig 5, items 32 and 19).

Considering claim 33 Galle discloses the limitation of this claim (see col 8, lines 37-40, col 9, lines 31-41, col 11, lines 47-50 and fig 5, items 32, 19 and 114).

Considering claim 34 Galle discloses the limitation of this claim (see col 11, lines 56-59 and figs 1 and 5).

Considering claim 36 Galle discloses the limitation of this claim (see col 7, lines 8-11).

Considering claim 37 Galle discloses the limitation of this claim (see col 9, lines 17-30).

Considering claim 38 Galle discloses the limitation of this claim (see col 7, lines 50-57).

Considering claim 39 Galle discloses the limitation of this claim (see col 7, lines 63-65 and fig 6B).

Considering claim 40, the limitations of this claim are interpreted and rejected as stated in claim 1.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 35 is rejected under 35 U.S.C. 103(a) as being unpatentable over Galle.

Considering claim 35 Galle does not specifically recite the signal conductor is arranged within a recess in the interior wall of the tubular. Examiner takes official notice this limitation is well known in the art.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

If the claimed invention is amended, Applicant is respectfully requested to indicate the portion(s) of the specification, which dictate(s) the structure/description relied upon to assist the Examiner in proper interpretation of the amended language and also to verify and ascertain the metes and bounds of the claimed invention.
